

## Resolutions

1.

Developments all over the world impose a racing alarm.

NATO - US - EU and all the imperialist plans are leading to the line: what is not solved by words, it's solved with weapons.

The winners will be some business giants who will take part of the profits from the Balkans to the Middle East. That policy puts of all people in great danger.

For more than 20 years US and its war arm NATO, embrace the EU bloodshed all peoples of the region.

The Mediterranean is a focal point of markets today. The control of energy roads, of markets, transcends any political consensus, and war is a natural continuation for capitalists.

The EU and NATO cynicism in attack on Syria, Libya, Irak, Palestine and other countries must concern the working class of our sector.

War is the other view of barbarity of human exploitation. That 's why they cheat people, they hire terrorists, they sell guns, they light civil fires.

Our interest is to cancel all the imperialist plans.

We have no other way but to stand up.

To open up a strong frontier against NATO and US war plans.

To fight against exploitation on our countries.

2.

Tui Hotour, representing class oriented working movement in the tourism sector, member of the WFTU, expresses the support and admiration of the 3<sup>rd</sup> Congress to the great struggles of the French workers.

In France and throughout Europe, the governments are attacking workers, their salaries, their rights to Public Health-Free Health and Insurance to protect the profits of business groups. Historically social insurance is built by workers, based upon international solidarity, making employers contributing.

In the face of this attack, the great struggle of the workers of France is a struggle of workers all over the world. The big strikes and the varied mobilizations for the past two months have touched and inspired millions of workers and trade unions who are watching that struggle, which is tough against a government who uses media slander, repression, but also uses forces within the unions, such as the Confederation of European Trade Unions, to create confusion and frustration among workers.

The French workers are already a winner. The capitalists and the Macron Government have already lost. Their law was revealed as unfair and unworkable.

Same struggles in Greece, in Spain and elsewhere are shown that we have a common enemy: the antilabor policies from EU, European governments and monopolies.

The 3<sup>rd</sup> TUI HOTOUR Congress express it's support and solidarity to the great struggle of the French workers and the ongoing strikes.

### **3.**

#### **Special resolution on Palestine**

The TUI HOTOUR as a sectoral International of WFTU condemns the USA and Israel aggression against Palestine, also colonization and occupation.

Jerusalem and Al Qods is the main and holy place for the Muslims and Christians in the world and they own it. USA decided to end support in UNrwa, what will affect life of Palestinian people.

We state that the Palestine have the right to live in their land, that was stolen to them on 15<sup>th</sup> May 1948.

Specially, we vehemently condemn the USA president Donald Trumps statement about the Palestinian case. Once again, USA violates the international laws. They don't respect the international agreements, ignore the UN resolutions, and offense all Arab people, and stole their homeland.

We require the immediate end of the aggression of Palestinian people. They have the right to live in peace in their homeland, without being oppressed or murdered by USA or Israel state.
